

Powerful way of removing tough problems easy

Heavy Duty Cream Cleaner

Many of the cleaners available today simply just don't perform the way they are intended, particularly on tough stains like FOG (fats, oil and grease), bathroom/washroom grime and soap scum. With all the scrubbing needed to get a result, they leave you doing most of the hard work.

The Cream Cleaner has been formulated to cut through the thick grime found in washrooms, bathrooms and kitchens while being safe to use while restoring the surface to its original shine.

Washroom/Bathroom

The Cream Cleaner can be used on tough and nasty stains on urinals and toilets and cut through soap scum and bathroom grime. The cream can safely be used on wash basins, toilets, bathtubs, showers, taps & other fixtures and ceramic flooring and wall tiles. With a fresh fragrance, it will leave the bathroom smelling fresh and hygienic - can even be used on stainless steel.

Kitchen

The Cream Cleaner removes tough burnt on grease, oily spills and tough dirt and stains around the home or industrial kitchen. The cream can safely be used on oven, cook tops, benches, tiles & floors, sinks and tap & other fixtures. Can be used on stainless steel. With its powerful formulation, it will leave your kitchen smelling fresh and hygienic restoring the surface to its original shine.

With the added specifically selected patented beneficial bacteria which is tough on dirt, removes stains and breaks up grease without scratching and the use of harsh chemical cleaners.

Usage Recommendations

Application

This powerful cream cleaner breaks down tough problems like fats, oils and grease without harsh starching.

For Optimum Results

- This product is most effective when the product is given more time to break down the urine
- As this product is biological, mixing with any bleach, disinfectants, acids, other chemicals or hot water (above 55°C) may reduce the effectiveness of the cleaner. Store in a dry, cool place.
- Best before within 2 years.
