

Biological Wetsuit Cleaner

Removes salt, water and organic waste from wetsuits preventing deterioration while restoring flexibility. Rids wetsuit of offensive odours.

The Biological Wetsuit Cleaner contains naturally occurring active bacteria which rids wetsuit of harmful organic waste such as salt, urine, chlorine and soap. It also ensures ODOUR free elimination rather than just masking smells. This product keeps the environment free from harmful chemicals and it is Biodegradable and sustainable.

DIRECTIONS - SHAKE WELL BEFORE USE

1. NEVER DILUTE or mix with chemicals.
2. Pour approx 20mL of Biological wetsuit cleaner in a tub of fresh water.
3. Soak the wetsuit in the tub and leave it for 15 to 20 minutes.
4. After soaking, thoroughly hose off the wetsuit with fresh water.
5. Hang the wetsuit and ensure air dry.
6. Do not mix with chemicals as it kills the bacteria.
