

Bio Natural Solutions

K9 Grease Destroyer Concentrate

Safety Data Sheet

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name K9 Grease Destroyer Concentrate
Product Use Highly concentrated microbial treatment to gently digest FOG from grease traps
Company Name Bio Natural Solutions Pty Ltd
38 132 198 853
Address Factory 15
49 – 55 Garden Drive
Tullamarine Victoria 3043
Telephone 1300 730 551
Fax 1300 491 167
Emergency Telephone 0418 338877
Email support@bnsolutions.com.au

2. HAZARDS IDENTIFICATION

Product has been classified as non hazardous according to the criteria of Worksafe Australia

Hazard Category: Non allocated
Hazard Classification: Non Hazardous, Non dangerous
Risk Phrases: R36/38 – Irritating to eyes and skin.
Safety Phrases: S24/25 Avoid contact with skin and eyes.
S26 - In case of contact with eyes, rinse immediately with plenty of water and contact a doctor or Poisons Information Centre.
S36/S37 - Wear suitable protective clothing and gloves.
S62 – If swallowed do not induce vomiting, seek medical advice immediately and show this MSDS or label.
Poison Schedule: None allocated [Aust].
Warning Statement: None indicated.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance Name	Proportion	CAS Number
Non-pathogenic Bacteria cultures Suspended in water	97%	N/A
Biodegradable Polyglycoside Surfactant	2.5%	132778-08-6
Odour Neutralising Fragrance	0.5%	N/A

All other ingredients are not hazardous according to the EU Criteria:

4. FIRST AID MEASURES

Swallowed If swallowed, DO NOT induce vomiting or give anything by mouth. Seek immediate medical attention. Do not leave victim unattended. Vomiting may occur spontaneously. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. If vomiting occurs and victim is conscious, give water to further dilute the chemical.

Eye Immediately flush eyes thoroughly with plenty of water for at least 15 minutes, ensuring eye lids are held open. If irritation persists, transport to hospital or doctor.

Skin In case of contact, immediately wash with plenty of soap and water.

Inhaled Respiratory irritation or distress should not normally occur using this product. If this condition occurs, remove the victim to fresh air. Seek medical attention if respiratory irritation or distress continues. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device as a bag or mask.

First Aid Facilities Eye wash fountain, safety shower and normal wash room facilities.

Advice to Doctor All treatments should be based on observed signs and symptoms of distress in the patient.

In case of poisoning, contact Poisons Information Centre:

In Australia call Tel: 131126

In New Zealand Tel: 034747000

5. FIRE FIGHTING MEASURES

Fire/Explosion Hazard If safe to do so, move undamaged containers from fire area.

Fire Fighting Procedures Fire fighters to wear Self-contained breathing apparatus (SCBA) in confined spaces, in oxygen deficient atmospheres or if exposed to products of decomposition. Full protective clothing is also recommended.

Extinguishing Media Use extinguishing media suitable for surrounding fire situation.

Hazchem Code None allocated [Aust]

Flammability Material is non flammable.

6. ACCIDENTAL RELEASE MEASURES

Wear protective equipment to prevent skin and eye contact, as outlined under personal protection in this MSDS. Non-Hazardous powder which is allowed to go into the drains. Sweep or use absorbent dust and collect and seal in properly labeled containers for disposal. Rinse area with water to remove residue.

7. HANDLING AND STORAGE

Store in a cool place and out of direct sunlight. Store away from sources of heat or ignition. Store away from oxidizing agents. Keep containers closed, when not using the product. Store in original packages as approved by manufacturer. Use good hygiene practices when handling live organisms.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

No exposure standards are available for this product; however the following exposure standards have been assigned by NOHSC to the following components of the product:

Engineering Controls	Where engineering controls are indicated by use conditions or a potential for excessive exposure exists, the following exposure techniques may be used to effectively minimize employee exposures.
Eye Protection	When engaged in activities where ingredients could contact the eye, wear safety glasses with shields or goggles. In extremely dusty environments and unpredictable environments, wear unvented or indirectly vented goggles to avoid eye irritation or injury.
Skin Protection	Skin contact should be minimized through use of gloves and suitable long sleeve clothing.
Respiratory Protection	Avoid actions that cause dust exposure to occur. Use local or general ventilation to control exposures below applicable exposure limits. NIOSH or MSHA approved particulate filter respirators should be used in the context of respiratory protection program meeting the requirements of the OSHA respiratory protection standard [29 CFR 1910.134] to control exposures when ventilation or other controls are inadequate or discomfort or irritation is experienced. Respirator and/or filter cartridge selection should be based on American National Standards Institute (ANSI) Standards Z88.2 Practices for Respiratory Protection.
Ventilation	Use local exhaust or general dilution ventilation to control exposure within applicable limits.
Work Practice Controls	Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material: (1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored. (2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet. (3) Wash exposed skin promptly to remove accidental splashes or contact with this material.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Opaque, light tan liquid
Odour	Clean Odour
pH	1% ~ N.E.
Boiling Point	212°F
Physical State	Liquid
Vapour Pressure	Same as water
Specific Gravity	1
Flash Point	Not applicable
Flammability Limits	Not applicable
Solubility in Water	Yes

10. STABILITY AND REACTIVITY

Stability	Stable under normal conditions of use.
Hazardous Decomposition Products	Decomposes on heating emitting soot, smoke and decomposition products.
Hazardous Polymerization	Will not occur.
Incompatibilities	Strong acids, alkalis and oxidizing agents.
Conditions to Avoid	Heat, flames, ignition sources and incompatibles

11. TOXICOLOGICAL INFORMATION

No adverse health effects are expected, if the product is handled in accordance with this MSDS and the product label. Symptoms and effects that may arise if the product is mishandled and overexposure occurs are:

ACUTE HEALTH EFFECTS

Swallowed	Ingestion is not likely route of entry. Ingestion may cause possible GI tract irritation.
Eye	Contact during the handling of this product may cause irritation and possible infection.
Skin	May cause irritation or redness to the skin.
Inhaled	Not believed to pose any problems if inhaled.
Chronic	No information found.
Toxicological Data	There is no other toxicological information available for this product.

12. ECOLOGICAL INFORMATION

Ecotoxicity	No data available.
Mobility	No data available.
Persistence/Degradability	No data available.
Chemical Fate Information	No data available.

13. DISPOSAL CONSIDERSATION

Contact the Land Waste Management Authority in your state

14. TRANSPORT INFORMATION

Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code) 6th Edition. Not classified as a Dangerous Good according to the UN, DOT(US), ICAO(IATA) or IMO(IMDG).

15. REGULATORY INFORMATION

Poison Schedule: Non allocated (Aust)
Product has been classified as non hazardous according to the criteria of Worksafe Australia.

16. OTHER INFORMATION

This MSDS summarizes our best knowledge of the health and safety hazard information available on the product and the measures to be used to handle and use the product safely. Each user should read this MSDS and consider the information in connection with the way the product is intended to be handled or used.
